

What if a prosthesis wasn't just a medical device – but part of one's identity?

Lifelike – As real as life itself.

Our lifelike silicone prosthetic gloves restore what truly matters: normality, confidence, belonging.

As a medical supply retailer, you can help make this possible – with an innovative product that blends seamlessly into everyday life.

Realistic down to the smallest detail. Discreet in daily use. Made in Germany.

With Lifelike, you're not just offering a product – you're restoring genuine quality of life.

We design prosthetics that don't stand out – they simply belong.

– Willi & Stefan von Essen,
Founders of Lifelike Prosthetics

We're redefining life with a prosthesis through innovation, precision, and a deep understanding of people's fundamental desires: a sense of effortlessness in every moment.

In cooperation with

Winner Brandenburger
Innovationspreis 2024

With Lifelike, you're ahead of the curve – adding an innovative solution that elevates your range and enhances your customers' lives in every way.

- + No effort for your team:
Impressions and scans handled by us
- + Compatible with nearly
all standard prosthetic hands
- + High-quality HTV silicone
- + TrueSkin technology – patent pending
- + Quality and reliability –
Made in Germany

BENEFITS FOR CUSTOMERS

Regaining a sense of normality – every single day.

Our prosthetic gloves blend into everyday life – discreet, functional, and tailored to the individual.

- + Authentically human:
Matches shape, skin tone and age
- + Natural feel thanks to flexible silicone
- + Mental wellbeing through natural appearance
- + Maximum precision via 3D technology
- + Restoration of one's own body image

PRECISION MEETS PERSONALITY

Prosthetics re-imagined. Down to the smallest detail.

Each Lifelike glove is as individual as the person it's made for. Our manufacturing process combines cutting-edge, digital technology with skilled craftsmanship – for optimal results in both function and aesthetics.

- + **Capture:** High-resolution 3D scan, moulding and photo documentation
- + **Colour matching:** Custom or system-based tones
- + **Finalisation:** Colour finish with true-to-life detailing

**A world-first in prosthetic technology.
Made in Germany. 100% Lifelike.**
